

## **Manuscript submission**

By submitting a manuscript authors warrant that their contribution to the Journal is their original work, that it has not been published before, that it is not under consideration for publication elsewhere, and that its publication has been approved by all co-authors, if any, and tacitly or explicitly by the responsible authorities at the institution where the work was carried out.

Authors are exclusively responsible for the contents of their submissions, the validity of the experimental results and must make sure that they have permission from all involved parties to make the data public.

Authors wishing to include figures or text passages that have already been published elsewhere are required to obtain permission from the copyright holder(s) and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the authors.

Authors must make sure that all only contributors who have significantly contributed to the submission are listed as authors and, conversely, that all contributors who have significantly contributed to the submission are listed as authors.

The manuscripts should be submitted in English (with a summary in English or Serbian language – translation of Summaries into Serbian language for non-domestic authors will be performed by the Editor's office) by email to: [biotechnology.izs@gmail.com](mailto:biotechnology.izs@gmail.com)

Manuscripts are be pre-evaluated at the Editorial Office in order to check whether they meet the basic publishing requirements and quality standards. The verification of the received manuscripts for plagiarism is done with the help of the CrossRef Ithenticate service.

Authors will be notified by email upon receiving their submission. Only those contributions which conform to the following instructions can be accepted for peer-review. Otherwise, the manuscripts shall be returned to the authors with observations, comments and annotations.
